IN VOLUMES 401–500

December 1999–February 2004

CAMBRIDGE
UNIVERSITY PRESS

The JOURNAL OF FLUID MECHANICS exists for the publication of theoretical and experimental investigations of all aspects of the mechanics of fluids.

FOUNDING EDITOR **Prof. G. K. Batchelor**

EDITORS

Prof. S. H. Davis, Department of Engineering Sciences and Applied Mathematics, Northwestern University, Evanston, IL 60208, USA. *FAX* 1 847 491 2178; sdavis@casbah.it.northwestern.edu

Prof. T. J. Pedley, Department of Applied Mathematics and Theoretical Physics, University of Cambridge, Centre for Mathematical Sciences, Wilberforce Road, Cambridge CB3 0WA, UK. *FAX* 44 1223 765900; T.J.Pedley@damtp.cam.ac.uk

EDITORIAL ASSISTANT

Dr Linda Drath, DAMTP, University of Cambridge, Centre for Mathematical Sciences, Wilberforce Road, Cambridge CB3 0WA, UK. *Telephone* 44 1223 764060; *FAX* 44 1223 765900; jfm@damtp.cam.ac.uk

ASSOCIATE EDITORS

Prof. R. J. Adrian, Department of Theoretical and Applied Mechanics, University of Illinois, 104 South Wright Street, Urbana, IL 61801-2935, USA. *FAX* 1 217 244 5707; r-adrian@uiuc.edu

† Also Book Review Editor.
‡ Editor handling fast-track papers.

SUMMARY OF INSTRUCTIONS FOR AUTHORS

A complete set of instructions is available at http://jfm-www.damtp.cam.ac.uk

Submission

Authors wishing to have papers published in the *Journal* should send them as hard copy to any editor or associate editor; the submission of four copies will expedite assessment. Fast track papers (10 printed pages or fewer) must be submitted electronically to Professors Sreenivasan or Manneville, who should be consulted in advance. Original figures should not be sent until the paper is accepted. The initial submission will be acknowledged by post or email. Submission of a paper implies a declaration by the author that the work is not being considered for publication elsewhere and that it has not already been considered by a different editor of the *Journal*. A report on a conference must be submitted within three months of the meeting.

Preparation of papers

Authors are urged to write their papers clearly and attractively, so that their work will be readily understood by readers. A brief summary of editorial requirements for notation, English and presentation is available on the JFM web page. Manuscripts should be typed in double spacing on one side of the paper only, with references listed at the end in alphabetical order of authors and with a separate list of figure captions. Authors are urged to use the JFM LaTeX style macros. The [referee] option should be used for initial submission. The style file together with a guide to its use, sample pages and details of editorial style and notation, or the corresponding older LaTeX2.09 files, are available via anonymous ftp from the Cambridge University Press at ftp.cup.cam.ac.uk in the directory /pub/texarchive/journals/latex/jfm-cls or /pub/texarchive/journals/latex/jfm-sty; or from the JFM Editorial Office. These files will be updated periodically; please make sure that you have the latest version. While use of the JFM LaTeX macro is preferred, ordinary LaTeX or plain TeX files can also be accepted. Other software, such as Word, will be converted to LaTeX in the JFM Office.

Extensive detailed mathematical relations, tables or figures likely to be useful only to a few specialists will not be printed, but will be available as an electronic supplement to the online version or from the JFM Editorial Office.

Accepted papers

Once a paper is accepted, a hard copy of the final version must be sent to the editor handling the paper, together with an electronic version of the text on a disk. Authors must provide a set of high-quality hard copies of figures, and original prints of photographs if available, as figures will normally be scanned. Lettering will be inserted by the printer and should be shown on a copy of each figure, together with the relevant caption, rather than on the original. Do not send files for figures: any figure files that are required will be requested at the time of printing, and should be in *.eps, *.tif or Photoshop format.

Charges

There is no charge for publication, but the cost of any colour figures (£500 for 1 page, £1000 for 2–4 pages, £1500 for 5–8 pages, £2000 for 9–12 pages, £2500 for 13+ pages) must be borne by authors. Authors will receive 50 offprints of a paper free of charge; additional offprints can be purchased if ordered when the proofs are returned.

Address questions or comments to Dr Linda Drath at the JFM Editorial Office, Department of Applied Mathematics and Theoretical Physics, University of Cambridge, Centre for Mathematical Sciences, Wilberforce Road, Cambridge CB3 0WA, UK; tel: 44 (0)1223 764060; fax: 44 (0)1223 765900; e-mail: jfm@damtp.cam.ac.uk.

INDEX OF AUTHORS OF PAPERS

For the purpose of determining place in the alphabetical order, a name is regarded as beginning with the first capital letter of the main or family name. Subsequent spaces, hyphens or apostrophes in the main name are disregarded. Names prefixed by Mc are ordered as if the prefix were Mac.

Aamo, O. M. *See* Bewley & Aamo

Abbaschian, R. *See* Chen, Abbaschian & Steen

Abid, M., Andreotti, B., Douady, S. & Nore, C.
Oscillating structures in a stretched–compressed vortex, **450**, 2002, 207–233
